import/export documentation & procedure - import/export documentation & procedure by qaiser javed mian brief perspective of export documentation now a days export license is no more required to export. only the following initial documents are required to export: 1) ntn national tax number certificate, which is issued by the income tax **export documentation: top 10 export and import documents** - export documents are more complex than those used for domestic sales due to the special characteristics of international trade: geographical distance, different customs laws, different means of transport, greater risks, etc. the documents required for each shipment **procedure for clearance of imported and export goods** - similarly customs clearance formalities for goods meant for export have to be fulfilled by presenting a shipping bill and other related documents. these documents are verified for correctness of assessment and after examination of the goods, if warranted, 'let export order' is given on the shipping bill. 2. import procedure - bill of entry: **guidelines for import and export - ich** - 3. relevant invoice or bill together with an import permit or export permit importation and exportation of controlled substances most of the requirements specified in these guidelines on import and export procedures for medicines also apply to the border control of controlled substances in addition to **an analysis of import-export procedures and** - to map export procedures, the project focused on garment and electronic exports to japan and thailand, while for imports, textiles and automobile parts from japan has been the focus of analysis. our findings are somewhat different from those of the world bank. the number of days for the export and import processes is markedly lower than the wb ...
